

budgetforall.org

Budget for All Winnipeg is a coalition of Winnipeg groups and individuals who have joined together in response to Mayor Bowman and his budget working group's proposals for the upcoming 4-year city budget. Still in draft form, the proposed budget will make life harder for many, slash the social fabric of Winnipeg, and do violence to our communities. A just and peaceful city requires investment in life-sustaining services instead of cuts.

We have a vision of a Winnipeg for everyone, not just some people or some neighbourhoods.

PUBLIC SERVICES Libraries, pools, arenas, cultural funding and the like are essential services that allow Winnipeggers to stay warm and cool, socially connected, engaged, fit, and informed. Underfunding these services will harm everyone.

TRANSIT Public transit is not only the way many Winnipeggers get around in a growing city, it's also one of the most important parts of any strategy to address the climate crisis. Underfunding of transit will be ruinous for our mobility and our planet.

ENVIRONMENT Trees, parks and rivers make our city healthy and beautiful. Underfunding our green infrastructure will cause terrible and possibly irreparable damage.

Public Services, Transit and the Environment are all intricately connected, and all require investment and care.

A cut to one is a cut to all.

FIGHT FOR A WINNIPEG FOR ALL

Contact your councillor and the mayor to tell them you want them to choose increased funding for life-sustaining services instead of cuts, and speak with your friends, family and communities about the better Winnipeg we can build together with a budget for all.
